

Parents -- check the boxes of the statements you agree with:

all children can learn

student success improves with parent & family involvement

children don't all learn the same way

consistency helps children learn better

If you checked *any* of the boxes above, then this session is for you!

In response to parents' requests, Moanalua Elementary's Grade 1 teachers and Literacy Coaches have created this workshop for parents who want to help their child meet grade level Language Arts and Math benchmarks.

Join us to learn *Reading Response* and *Problem Solver* methods to use at home!

# Reading & 'Rithmetic 2010

An interactive learning event just for Grade 1 students and parents!

Thursday, Sept. 16, 2010  
MES Cafeteria: 6 - 7:30 p.m.

move from "Old School" book reports and math drill sheets toward "NewSchool" book talks and math process practices that benefit student achievement.

We really believe you'll enjoy learning more about *Reading Response* and *Problem Solver*; we also know that our families have hectic schedules so we're trying to make things easier for you to attend -- we are pre-ordering "bento" (rice, mochiko chicken, hot dog, fishcake, pickle, andagi) for the reasonable price of \$4 each; -- dinner's taken care of! If you'd like to take advantage of this economical and time-saving option, please be sure to complete and turn in your RSVP by Sept. 8<sup>th</sup> (we need to place our order with the caterer a week ahead).

The schedule for the evening is: 5:30 - 6:00 registration (& optional bento dinner)  
6:00 - 7:30 activities begin!

Benchmarks that will be addressed are:

L.A. 1.2.3 - use previous experiences to understand topics and concepts in texts

L.A. 1.2.4 - restate important information or ideas from a variety of texts.

Math 1.3.2 - use a variety of strategies to solve number problems involving addition and subtraction.

Math 1.10.1 - use objects, pictures, words, and number sentences to represent and solve numerical problem situations involving addition and subtraction.

*Questions?* contact Susie Okumura, MES PCNC, at 831-7884 or email mes\_pcnc@yahoo.com
